

We are disturbed to hear that the NJ Do Not Call law is being considered for revision. We are absolutely thrilled that we can finally have dinner, after a long day's work, without the phone ringing, or sleep a little later on days off instead of up at 4 am etc. How often do people actually need aluminum siding, windows, mortgage refinance, change in telephone service etc.? They are absolutely annoying. We should be able to choose ourselves if we want to calls or not, PLEASE LET THE LAW REMAIN!
